ABOUT ME

Motivated Bachelor of Technology (ECE) undergraduate with a strong interest in IoT, AI/ML, Data Analytics, Full Stack Development, and Software Engineering. Possess foundational skills in programming, web technologies, and data-driven problem solving, and actively seeking opportunities to apply technical knowledge in real-world projects while continuously upskilling.

EDUCATION

BACHELOR OF TECHNOLOGY IN ELECTRONICS & COMMUNICATION ENGINEERING [2022 - 2026]

SASTRA DEEMED UNIVERSITY,
KUMBAKONAM.

HIGHER SECONDARY CERTIFICATE (HSC) & SECONDARY SCHOOL LEAVING CERTIFICATE (SSLC) [2019 - 2022]

CHRIST THE KING MATRICULATION
HR.SEC. SCHOOL,
KUMBAKONAM.

SKILLS

TECHNICAL

- Java with DSA
- IOT
- Python
- ML & AI
- SQL
- Data Analytics

SOFT

- Communication
- Adaptability
- Problem Solving
- Self - Learning

INTERNSHIPS

TATA GROUP [DEC 2024]

Domain: Data visualization & Empowering
Business with Effective Insights,
Work Place Remote.

BSNL [JUNE 2025]

Domain: Telecommunications &
Networking, Work Place
Kumbakonam.

PROJECTS

CHRONIC HEART DISEASE PREDICTION SYSTEM

Developed a machine and deep learning-based predictive system for chronic heart disease using Python and Jupyter Notebook, processing extensive datasets to enable early risk assessment. Implemented a Flask web interface for real-time predictions

PREDICTIVE ANALYSIS OF INSECT GROWTH

Developed a predictive analytics system leveraging Python and Raspberry Pi to monitor and forecast insect growth using real-time sensor data. Implemented machine learning models to enable early detection and decision-making for pest management

INDUSTRIAL MANIPULATOR ROBOTIC ARM

Designed and developed a mobile application to control an industrial robotic arm by transmitting Bluetooth signals to an Arduino Uno, enabling precise servo motor actuation. Integrated real-time user interface design, demonstrating software development skills in embedded systems and mobile app integration

AI AGENT MARKETPLACE PLATFORM

Designed an AI Agent Marketplace for discovering, managing, and interacting with intelligent AI agents. Implemented backend workflows for agent management, interactions, and AI-driven task automation. Gained hands-on experience in AI concepts, full stack development, API integration, and scalable system design.

CERTIFICATES

- **GenAI-Powered Data Analytics Job Simulation** – Tata (via Forage): Hands-on experience in EDA, AI-driven risk profiling, predictive analytics, and data storytelling.
- **Essentials of AI for STEM Graduates** – HCLTech: Practical understanding of using AI tools to improve work efficiency, productivity, and problem-solving.
